How We Did It

### What are we trying to do?

Impact

## **Phase 1: Plus Up Marketing**

**Segments** Built hyper-targeted audiences

**Intent Data** Layered intent data and predictive analytics into digital marketing

#### Targeted Ads

Launched ads to test how our message resonates with our ICP

Impact

### **Quick Win:** Pipeline

In Q2, one of our GTM key segments saw a significant slow down in the pipeline especially compared to aggressive growth goals.

Partnering with our sales team, and with our 6Sense success team, we quickly designed and launched an orchestrated ABX campaign resulting in **2.5x increase in pipeline** MoM.

## Phase 2: Build a Tiger Team

#### Internal Champions

Selected BDR team advocates to help roll out 6Sense for sales

#### **Create processes** Established outbound BDR strategy and new rules of engagement

#### **Open Communication**

Created a feedback loop to celebrate wins while encouraging feedback for improvements

Impact

### **Quick Win:** Tools and Teams Working Together

"Your email was perfectly timed. You were actually next on my to do list this morning. Could we schedule some time to speak?"
